

future is at a great crisis-time now, and we are allowed to tell you that many great spirits who lived in those ages are again living on these two continents, because they have chosen to leave their well-earned heights of heavenly glory to assist us in the great struggle now engaging the entire population of the earth.

It is a death struggle, and the forces of darkness know it. To be chained within the confines of their limitations of darkness is intolerable to them, for they are individuals in the ranks of the fallen angels who still hold enlivening memory of their state of bliss which they enjoyed in heaven before they were given the power to reject it by their own choice. While the light of God's love is intolerable to their conscious minds, so that they turn and flee from it, the darkness of their own shadow as they run into it ever caused fear in their subconsciousness. This condition brings about insanity which they inflict on any individual, group, or nation they can find unguarded by God's Love.

WHENEVER A NAME COMES PERSISTENTLY TO MIND ALWAYS PRAY FOR THAT PERSON; YOU MAY BE SURE IT IS BEING REQUESTED BY SPIRIT SERVANTS WHO NEED IT IN THEIR WORK.

God needs constructive, creative prayer that springs from deep, inner desire for the salvation of every son of God on earth. He needs a love for all His children in the heart of each of them - a brotherhood of sons of God of the earth, not a men's brotherhood of such and such a church, a brotherhood of a certain group of industrial workers, or those who have passed initiation into a certain group of men belonging to a lodge or fraternity. Those are only one step higher than ingrown personal love of self, for they discriminate against others of differing ideals, which is the small brother of "nation-against-nation" war.

Whenever a human being is entirely dedicated to God, we can speak directly through that person at any time we find it expedient. This does not apply to ministers or public speakers exclusively, often not to them at all, but to anyone in any walk of life open and receptive to God.

If those who serve under the banner of the Living God could realize that all the hosts of highest heaven are alive and at their service, all the time waiting to come at their call to help in ways of which human mind cannot conceive, we could come in and heal the nations of war and its causes overnight. We regret to say that our hands are tied because we, the Forces of Light, must wait for your cooperation in prayer. We strive in every possible way to help, unmasked, by keeping our groups of earth's graduates guarding all those who go into this incarnation to do a certain great work. There is great need that "His Angels" be given charge over these because the satanic forces know who are destined for great and powerful blows against their diabolical schemes. Often those who realize early in life that they are on earth to do a great work are so misunderstood and ridiculed under the influence which dark forces have gained over the adults in charge of them that they are made insane by the frustration of spirit warring against the circumstances of the physical life.

These dedications are implanted in the innermost center of the consciousness at birth, waiting to be brought out and fulfilled, even to the very end of a long, frustrated physical life. THE SUCCESSFUL LIFES THE ONE THAT BECOMES CONSCIOUS OF THE PURPOSE FOR WHICH IT WAS INCARNATED AND FULFILLS IT. Too often the subconsciousness unreasoningly presents this inner spiritual dedication of prenatal purpose to the physical being as unfulfilled physical desire, and the body seeks its fulfillment in over-indulgences in eating, drinking intoxicants, or sexual gratifica-

retarding God's Plan has half as much the deterrent effect on spiritual growth as this one matter, and the Depression brought a new large-scale assault on this fortress by the Dark Forces. It was an all-out attack, and the defenses were down. Our cells of prayer with new open-mindedness and spiritual insight grew and multiplied in spite of all the setback God's clock had to take from his choosing sons of earth.

The "Second World WAR" phase of the Great Struggle came as the result of individual failures to choose aright and to pray aright. This is the answer to the question so many uncertain human beings are asking: "Why did God let it come?" He did not. You did.

At this time God is sending this written message to you. It is a personal letter from God to each of you whose hearts have burned within you as you read. It is His urgent appeal to you to come into His Army and advance with Him into the Golden Age of the Future.

small part of God's Eternal Plan for His children. All taught the ever-present availability of help and companionship of Spirit Guides, and the Presence of the Great Father.

These started as small, independent groups, widely separated by space, yet one in time and spirit? To any human observer there was no connection between these. No one human being was aware of all of them; however, on the Spirit Planes all were held together by invisible bands of light from the Plane of spiritual advancement in human affairs. It is a preparation for the return of God's Holy Son to the earth manifestation of life. He personally supervises the formation of these groups of Truth and Prayer all over the world. It is on this one level that the plan must be worked out. No league or any number of nations, united against other nations, for the propagation of hate, of defense, or of aggression, can ever come into being and live long on the face of God's earth, because it is not in the Plan. Dark Forces will try it again and again, but it will always fail for this one reason: it is not in the name and under the sign of the living Son of God. But while the attention of the nations of the world is being drawn to the forming of such leagues and union and pacts among a few nations against other similar leagues of other nations, quietly, without fanfare or public knowledge, God is working out His Plan. These loudly acclaimed false fronts are a wonderful shield for the real Army of the Lord until it is grown to its full strength and is ready to stand forth in Light, to forever dispel the darkness of earth's shadows. That time is now close at hand, for it is very true that the darkest hour of the night immediately precedes the dawning of the new day. It is the ordinance of God and shall be brought to pass. Nothing can stop it, and only man's free choice can delay it. Atomic bombs have nothing on the atomic rapidity of the increasing energy and expansion of this great overhead organization of God's Army of Offense against the hordes of

Dark Forces at this time. Minds are being opened to it everywhere with lightning-like rapidity, and it is carried forward by the sheer force of its own momentum. It is His order for the New Day now dawning over the face of the earth.

How the Spirit Servers have worked and pulled wires behind the dark screen of human limitation to bring this Plan so near its fruition! We need your intelligent cooperation at this time of the approach of the great crisis, so God ordains that this form of communication shall become as common in use with you as the telephone. The radio phase will come later, but there are now on earth many great spirits who went into this life dedicated to this form of communication with those serving on the spirit planes. It is one great phase of the New Age development for this time. It is an extension of the communion Jesus had with the Father during His earth life. It is the ordinance of God and is being brought to pass now for the outpicturing of the work of the true League of Nations.

It was God's Perfect Plan that your "World War Two" should have been prevented. It was not God who allowed it to scar the face of the earth and deter the progress of His Plan. It was the handicap imposed on our Department's work by your choices. It was too often a losing skirmish with key persons, whose spiritual purpose in life had been successfully thwarted by dogma, doctrine and bigotry. It was heartbreakingly frequent that our failure in rapid expansion, as laid in the Plan, was due to lack of understanding of God's great gift of His creativity to His earth children. Whenever this great spiritual urge washed earth-bound on the level of physical gratification, in perverted sexual excesses, it acted to spiritual life like a pail of water poured into a sieve. Nothing earth people do toward

were the ones who failed to take any part in defending their own God-given right to choose their thoughts or to open their spirits toward high heaven to receive the Light.

Occasionally, one spirit was found who could receive a message of warning from a Spirit Server trained in sending his written message to earth. These were far apart and discredited by the very ones whose cooperation would have been most helpful - those within the churches whose prayers were trying to find a way out of man's self-inflicted dilemma. This means of communication, if properly received and believed, could have turned the tide of events away from the last phase of the fighting you human minds have catalogued as "World War Tow." How little you know of the Great Battle of the Depression!

It was here, in spiritual planes, that World War Two was fought and temporarily "lost." But God is not mocked. His Plan may be temporarily held back because He will not take away from His sons of earth their God-quality of creative power and their God-gift of free choice. With these in abusive misuse they may wreck their present civilization, or they may build up their God-likeness on the right-use-ness of these two great potentials and bring in the Golden New Age in the present generation.

CHAPTER X

One Central Truth

God's Plan was working out in overhead activity which stimulates what your war vernacular would term "underground activity," for it was all engineered by our Spirit Server's personnel in cooperation with every dedicated human channel open to God for His own use. Our Spirit Servers knew the Plan, and we had no way of knowing how it was to grow and develop, because its success or failure depended on what God, Himself, cannot predict - man's choice.

Spirit Servers from our Department were gathering together like-minded groups in other countries all over the world. These were not all under the name and sign of Jesus Christ, but were on the level of spiritual truth, designed for easy acceptance by the people of the nation in which they were to function. All had the one central truth: that God is Father of Mankind, and life in the earth plane of physical manifestation is only one

Gleefully the forces of darkness set to work to bring about destruction. They successfully upse: the economic balance of civilized countries, little realizing they were being used, under God's eternal laws, to help level off the inequalities which had grown out of these false ideas of life's values.

As they tumbled great fortunes into heaps of ruin overnight, leaving heartbreak and misery in their wake, we were able to enter the scene through the openings made where minds, used to having everything come their way, were turned outward and upward seeking help from some Source other than themselves. Prayer, though often times for nothing more than personal survival, is a state of mind into which we are allowed to enter with God's own spiritual food and succor.

During the years immediately following the armistice, when gains in wealth were the rule rather than the exception, and the high cost of living kept the others so much in the race to keep up to their desired custom of life, we found very little prayer-power being generated over the earth's' surface. The desire-prayer of hearts in general was for personal gain or for a chance to keep up to the expensive standards of living. Prayers reach the level to which they are sent by the heart in which they are generated. God's law of perfect balance was forced to fulfill itself, and the whole structure of civilization tumbled to the level of a new balance, seeking its fulfillment in ever new beginnings.

Again God's laws were challenged on a national scale. With whole nations starving, other nations willfully destroyed grain and animals which God's law of supply had provided for the survival of all nations upon the face of the earth.

The will to survive is one of God's basic laws; incorporated into every fiber of His sons of earth. Great hordes of spirits, dwarfed in bodies, starved to death. They were freed into the realm next to the earth plane. These spirits, still very conscious

of their suffering, were able to use their increased powers of locomotion to get over the earth's surface with the rapidity of thought to spread hate and revenge.

With all the power of God at our command, the Spirit Servers hovered over the earth's surface, waging war on the forces of darkness.

War on the plane of spirit life is a very different means of struggle against enemy forces than on the physical plane. Our weapons are well enumerated by Saint Paul in his letter to his churchmen. It is so true that we battle not against the forces that are seen, but against the powers of spiritual darkness. OUR GREAT HANDICAP IN THIS BATTLE IS TO REDUCE OUR VIBRATIONS OF LIGHT FREQUENCY SUFFICIENTLY TO TOUCH THE LOW VIBRATIONS OF THE DARK FORCES. THEY ARE AFRAID OF LIGHT AND ARE ABLE TO PROTECT THEMSELVES FROM IT BY HIDING BEHIND AND UNDER THE HUMAN WEAKNESSES THEY FOSTER IN THEIR VICTIMS FOR THIS VERY PURPOSE. TO MAKE A BULWARK BETWEEN THEM AND THE LIGHT OF GOD'S LOVE, WHICH THEY CANNOT FACE.

This love God keeps in constant availability over the entire earth's surface on the level just above that in which the physical life functions. It is His law that it must be consciously willed or chosen to enter into any human life on the physical plane. Its power is unlimited for a sure defense against the powers of darkness in spiritual (disembodied) places. ITS MEASURES IS DETERMINED BY THE DESIRE-PRAYER VESSEL EACH INDIVIDUAL HOLDS UP TO HEAVEN IN WHICH TO RECEIVE HIS SUPPLY.

Our great handicap in this war of the Depression was in the lack of cooperation from human beings themselves. They, into whose battle God had sent all His heavenly host of Healing,

tion. This is because the Dark Forces have entered into the physical being to use its facilities to satisfy their own lusts for these gratifications which they are not able to get in any other way. THE PROBLEM OF HUMAN BEHAVIOR CAN ONLY BE UNDERSTOOD IN ITS TRUE MEANING IN THE LIGHT OF THIS FACT. THE DARK FORCES ARE VAMPIRES AND THRIVE ON HUMAN LUSTS.

We strive for a better understanding of these truths in bringing these written messages to you at this time. God's plans are not to be thwarted and His ways, although considered by the psalmist to be "past finding out," are now to be revealed more and more to His earthly children. These revelations will come as fast as you are able to receive them. This has always been true, but now the need is so great that ways are being sought to increase the ability of individuals to receive more revelation of his ways from God.

Many books are being written now by spirit forces in control of a human being vibrating on their frequency and willing to cooperate. This is a law of God. It was made for the use of forces of Light and has been employed for scripture writing and in other ways for many centuries. The things which determine its creative or destructive values are: the sign under which the writing is done, the motive in the heart's desire of the person through whom it is written, and the spirit's purpose in transmitting the message.

Your earth is being flooded with millions upon millions of books, papers and magazines which are directly inspired by satanic forces for the one purpose of destroying all moral sense of righteousness and security in God's Love and His protection and loving care for His world. These circumstances seemed very critical in the years immediately following the signing of the Armistice.

Because God's only gift of creation is the part of God,

Himself, which He has bestowed upon His sons of earth, this holy thing is used as a tool of the Devil to turn men away from God's purpose from them. Because it is the strongest urge known to man's physical being, its real power and many of its functions are purposely dissipated by evil forces and turned to serve their own ends of destruction. This is accomplished through the printed page, the words and pictures for which are inspired by discarnate forces of darkness. They put their ideas across from the plane on which discarnate beings dwell whose physical lives have failed to give spiritual development sufficient to get them across the Shining River of Life to the higher spiritual planes. This literature is the work of the Hell-bound enemy of all God's holy creativity. It is here that the enemy attack is strongest because it is the most vital point at which the lifeline between God and His sons of earth is touched. If the obscene literature and talk could be entirely removed from the grasp of the present generation of grade school children, and God's own higher purposes for life on earth could be taught them through their school years, we could transform the entire war situation and heal the nations in this one generation.

It is not God's way to force even His most perfect Plan on any generation. It must be voluntarily chosen or rejected; however, these children are under the guidance of their parents who make the choice for them.
