Re: Electric field generator project/venture.

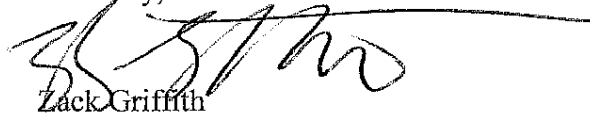

Dear Rob:

Mr. Tilley informed me that you are interested in having me provide some legal services (i.e. a secrecy agreement and non-compete form) for the electric field generator project/venture that you and he are undertaking at this time. As we discussed a few weeks ago, I am not willing to represent you without our first settling the outstanding debt you have with my law firm. Should you wish to do so, then I will be happy to work with you regarding the same and, after that, to discuss whether it would be appropriate for my law firm to handle any of the legal affairs regarding the current project/venture. You should understand that neither my law firm nor I represent you or any other person involved in the electric field generator project/venture in any capacity at this time.

As I have also mentioned to you before, I would greatly appreciate the opportunity to become involved in the electric field generator project/venture. However, it is my strong preference to do so in my individual capacity as a business person or co-venturer and not as an attorney representing either the venture or any of the parties associated therewith. If you are amenable to this, please let me know.

Thank you for thinking of me. Please do not hesitate to call if you have any questions.

Sincerely,

Zack Griffith
